## Thank You!!

We appreciate the time you spent reading our newsletter, and thank you for your patronage.

Thanks to your support we are fortunate for continued growth in our 40th year of business.

Feedback is always greatly appreciated, if there is anything we can do to better our service, please feel free to give us a call.

Best Regards,

## Manager and Estimator with 5-10 Years of Experience

*With a successful referral to our team, we will bonus you \$1,000.00*

LAKETOWN ELECTRIC CORPORATION is a growing mid-size commercial and industrial electrical contractor with 35 fulltime employees with an office based in Waconia, MN. Our projects consist of healthcare projects, commercial buildings and industrial facilities. Our projects range in size from a few thousand dollars to \$3 million in electrical scope.

We are currently accepting resumes for full time Electrical Estimators/Project Managers based out of our office in Waconia, MN. We are seeking individuals who project a professional image, have a positive attitude and are leaders and self starters with a strong work ethic and the ability to perform all levels and types of electrical estimating including commercial, industrial and healthcare projects. The electrical estimator must be able to estimate design-build projects (75% of our workload) as well as plan and spec projects. Once projects are acquired, they will quarterback client relations, scheduling, material procurement, attend jobsite meetings and respond to RFIs as required.

Applicants must possess superior skills in computer estimating and a proven background with RFIs, cost estimates, hard bids, material take-offs and reading construction documents. Candidates will be paid based on experience as well as aptitude with exceptional bonus potential. The candidate must possess good people skills and the ability to build rapport with key end users and general contractors. Proven experience with McCormick Estimating Software and Cobra are a major plus. Primary functions of this position will be to perform take-offs, formulation of proposals and final bidding of all types of commercial, industrial and healthcare projects. Applicants must also have the ability to read and understand contract documents, drawings and specifications; have an understanding of general electrical design and engineering concepts and have a considerable knowledge of electrical material costs.

We offer a full benefit package and exceptional salary based on experience complete with 401K/match, vehicle allowance, 100% employer provided insurance and paid vacation.

Interested applicants are encouraged to set up an in-person meeting with Matt Bergmann, and can reach him at 952-442-2740, [or email your resume to my attention.](#)
