

What's New at Laketown Electric

LEC has expanded to Southern MN with purchase of Javens Electric Inc.

On Aug 1, 2018 Laketown Electric Corporation (LEC) announced the asset purchase of Javens Electric, Inc a Mankato based company founded in 1987 with 35 fulltime employees. LEC acquired the Javens Electric, Inc assets, retained key employees and customer contracts and the merged business operates as Javens Electric Inc, DBA Laketown Electric Corporation.

Founded in 1975 by David Bergmann, LEC is led by second generation brothers Matt and Chris Bergmann and Vice President of Operations, Andy Kerber. LEC performs commercial and industrial electrical contracting, maintenance and engineering services for the mid-large size project markets. LEC has seen it's company grow from 13 employees in 2012 to 100+ today. The company has been recognized on the Inc 5000 list the last four years and was named one of the top 50 fastest growing private companies by the Twin Cities Business Journal the last three years. This merger will create a unified organization that will service the southern half of Minnesota and the Twin Cities Metropolitan Area with 100+ fulltime employees.

"The Javens Electric, Inc. purchase offers an exciting opportunity for LEC to strengthen and expand its services in high voltage, fiber and low voltage offerings," said Matt Bergmann, CEO of LEC. "With a large service base, aligned company cultures, values and highly skilled office and field teams, the acquisition supports the LEC strategy to continue to offer additional services and expand its capacities towards larger projects." Through this acquisition LEC positions itself to be one of the largest, most capable electrical contractors in the state of Minnesota.

Kenny Javens, founder and President of Javens, Inc, also commented "LEC's acquisition of Javens Electric, Inc. provides a major growth opportunity for both entities and will help position our employees with

many growth opportunities and a high level of service for our clients." Kenny Javens will offer transitional leadership with the company through the end of 2019 and retire. Longtime leaders Randy Senkyr and Andrew Javens will remain a part of the leadership team in Mankato. Jake Radford has been promoted to Vice President of the Mankato branch of LEC after a successful run as a senior project manager/estimator in Waconia.
